PRICE TWO CENTS

## The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's world-famed medicine leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicine in a class all by themselves. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret medicines largely, but the most intelligent people employ them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such professional endorsement.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

## ABSOLUTE DEADLOCK

CONFEREES UNABLE TO AGREE  
UPON MEAT INSPECTION  
AMENDMENT.

REFUSE COMPROMISE OFFER

HOUSE MEMBERS DECLINE TO  
ACCEPT PROPOSITION MADE  
BY SENATORS.

Washington, June 28.—An absolute deadlock on the meat inspection amendment to the agricultural appropriation was reported by Senator Proctor to the senate late in the day, after three sessions of the conferees had been held. The Vermont senator said that the house conferees had declined to consider any compromise on the subject of the payment of the cost of inspection by the packers.

"The senate conferees offered to compromise," he said, "upon a tax of 5 cents a head on cattle and 3 cents on hogs, sheep and goats, to be collected and turned into the treasury, the same as any other revenue." He read the compromise proposition showing that the \$3,000,000 appropriation provided by the house would remain in the bill and the cost of inspection would be paid therefrom. In reply to a question from Senator Hale he stated that the tax would amount to about one-half of the appropriation.

The third conference of the day had been concluded but a short time when Senator Proctor made his statement. At that conference he offered the compromise proposition which was met by the house conferees with the argument that it would be unconstitutional on the ground that congress has no authority to levy a direct tax upon chattels.

Refused to Consider Compromise.

In making his statement Senator Proctor said the conferees had agreed on practically all items, but that the house conferees had positively refused to consider any compromise. He then related the particulars of the provision regarding the cost of inspection and added that the house conferees had absolutely declined to sign the report unless the house provision should be accepted letter for letter. He said the effect of the position taken by the house would be to cause the failure of the legislation and the general arrest of business.

Responding to a question by Senator Nelson, Mr. Proctor said that nothing had been said regarding the provision requiring the date of manufacture on all canned meats.

"We did not reach it," he said. "They insisted on their entire provision; there was no chance for a compromise on anything."

Mr. Hale then spoke of the gravity of the situation and advised that the senate refrain from comment that might excite feeling. "My impression is that we will do well to leave it over night where it is, and that we should do nothing to inflame the situation in the hope that better counsels will prevail."

"I see nothing better to do," asserted Mr. Proctor, "the house conferees refuse positively to join in any report."

CROWDED WITH BUSINESS.

Senate Considers Several Matters of Importance.

Washington, June 28.—The senate was in open session for about five and a half hours. Proceedings began with a roll call in order to assure a quorum and the day was crowded with business of importance, including an announcement by Senator Proctor, chairman of the senate committee on agriculture, of a deadlock in conference on the meat inspection provision of the agricultural appropriation bill; a reply by Senator Bailey to the recent attack upon him in the Cosmopolitan; the passage of the naturalization bill; the continuance of Senator La Follette's effort to pass his bill limiting the hours of work for railroad trainmen; the acceptance of an almost complete report on the sundry civil appropriation bill and a speech by Senator Warren in support of his resolution relative to the livestock industry.

Senator Bailey denied all the allegations of the Cosmopolitan article and held W. R. Hearst responsible for the attack. He said that in the six political campaigns made by himself he had not spent as much money as Mr. Hearst had spent in one ward in his recent race for mayor in New York.

In his statement concerning the meat inspection provision Mr. Proctor said that the house conferees had refused all efforts at compromise and had refused to join in a report. The announcement was generally received

as indicating a deadlock, but hope was expressed that cooler counsel might prevail.

LAST OF BIG MONEY MEASURES.

House Passes the General Deficiency Bill.

Washington, June 28.—The general deficiency bill, the last of the big money measures, passed the house at 6 o'clock p. m. with a few changes in the text of the bill. Several items were inserted due to late information of deficiencies in the departments, the net increase for the day being about \$600,000.

Among the important actions of the house were the passage of the senate bill providing for a lock type of canal and the adoption of the item in the general deficiency bill ratifying and legalizing the duties collected during President McKinley's term on imports from the Philippines. Early in the day it looked as if the Democrats would line up solidly against the amendment, which was put back in the bill under a rule, but under the head of Mr. James (Ky.), the opposition melted away and few Democratic votes were cast against it.

At 6 o'clock the house took a recess until 8 p. m.

The house was in session for three hours at night, the speeches taking a wide political range, though the pending bill was the customs administrative act.

RESULTS IN NO AGREEMENT.

Conference Held on the Railroad Rate Bill.

Washington, June 28.—The conference on the railroad rate bill at night resulted in no agreement on that measure.

The discussion made it clear that the pass provision that is to be perfected for the action of the committee will follow closely the lines of the original senate amendment on that subject. It will name certain classes of persons who may receive passes and will exclude all others. There is also ground for the prediction that the pipe line amendment will be reported exactly as it was in the last conference report; that is, the phrase "common carrier" will give place to the word "railroads."

The effect of this will be to permit pipe lines to transport products owned by the owners of the pipe line.

Before discussing the two disputed amendments, it was decided that the former agreement as to all other points in dispute should stand.

This was the first meeting since the rejection of the conference report by the senate on account of the pass amendment and the provision relating to pipe lines. The conferees met in the rooms of Representative Sherman at the Hotel Normandie.

AGREE UPON PURE FOOD BILL.

Conferees Report to Senate Just Before Adjournment.

Washington, June 28.—The pure food bill was agreed upon by the conferees of the senate and house and was reported to the senate just before adjournment. The house bill was taken as a basis and on this were grafted many of the sections of the senate measure.

With the exception of two sections the bills were not materially different. Two provisions of the house bill were eliminated entirely. They would have authorized the secretary of agriculture to fix standards as to the wholesomeness or unwholesomeness of various food preservatives, and would have compelled the person selling drugs or food to furnish samples of such product for analysis.

The bill now makes it a misdemeanor for any person to manufacture, sell, or offer for sale any article of food, drug, medicine or liquor which is adulterated or misbranded, or which contains any poisonous or deleterious substance. It prescribes for each first offense a fine not to exceed \$500, one year's imprisonment, or both, and for each subsequent offense a fine of not less than \$1,000 or one year's imprisonment.

INVALID FOR THIRTY YEARS.

Sister of General George A. Custer Dies in Michigan.

Monroe, Mich., June 28.—Mrs. David Reed, sister of Generals George A. and Thomas Custer, who were killed in the Indian battle of the Little Big Horn in Montana, June 25, 1876, is dead at her home here, aged eighty years. Mrs. Reed had been an invalid since 1876, her health having been shattered by the crushing news from the Little Big Horn. Besides her two brothers she lost in that battle a son and a son-in-law.

WOULD NOT GIVE HIM MONEY.

So a Cleveland Man Killed His Wife and Himself.

Buffalo, N. Y., June 28.—Fred Haas of Cleveland shot and instantly killed his wife, Maud Haas, probably fatally wounded Mrs. Ida McElroy of 129 Oak street, and then shot himself through the head, dying a few minutes later. Mrs. Haas' refusal to supply her husband with money is said to have been the cause of the murder.

## HARRY THAW IS SANE

ALIENISTS REPORT THAT YOUNG

MILLIONAIRE IS NOT MENTALLY UNBALANCED.

REFUSES TO BE EXAMINED

SLAYER OF STANFORD WHITE DE-

CLINES TO REPLY TO QUESTIONS OF PHYSICIANS.

New York, June 28.—That Harry K. Thaw, the slayer of Stanford White, is perfectly sane was the report made by alienists retained by the district attorney's office to examine the prisoner's mental condition. This report was made after the physicians had spent an hour with Thaw, who, in defiance of the advice of his counsel, former Judge Olcott, refused to answer any questions and declared that nothing short of actual force would compel him to submit to a physical examination.

When the committee of physicians called upon the prisoner, Thaw said firmly, as the first member was introduced, "I beg your pardon, I will answer no questions whatever."

Then began a general conversation on trivial subjects, Thaw deftly parrying questions that had any bearing on his mental or physical condition. Finding him obdurate, the doctors hurriedly summoned Mr. Olcott, but to him Thaw vehemently reiterated his determination to answer no questions.

Pressed for an explanation of his refusal, he said:

"I haven't any; I have none at all. Put it down to obstinacy, if you wish." "This refusal will hurt you," Mr. Olcott is said to have pleaded.

Would Yield to Force Alone.

"I don't care. Nothing but absolute force will get me to allow myself to be examined or to say anything to-day. I think I first ought to talk with Dr. Hamilton and then have a talk with Mr. Delafield. Later I will tell you whether I will talk with the committee."

He was then taken back to his cell. Mr. Olcott said later that he was unable to account for Thaw's attitude and that he could only attribute it to unaccountable obstinacy. As his counsel, he said, he had no objections to Thaw's answering any of the questions addressed to him by the physicians.

After the alienists had gone Mrs. Thaw was permitted to see her husband for the first time since his arrest. She came to the Tombs in a carriage, accompanied by her husband's brother, Josiah C. Thaw. The husband and wife talked in an undertone for nearly an hour. Thaw also received visits from his sister, Mrs. George C. Carnegie, and Clifford W. Hartridge of Pittsburgh.

Before visiting the Tombs Mrs. Thaw had a long conference with Messrs. Olcott and Delafield, at which, it is believed, the line of defense was discussed and the intention to interpose a plea of insanity was confirmed.

When asked about the letters from White which Mrs. Thaw has turned over to Mr. Delafield, Mr. Olcott said that he believed they would be of material value to the defense.

Will Not Be a Formal Affair.

Coroner Dooley announced that the inquest will not be a merely formal proceeding, but that all available witnesses will be examined in order that Thaw may be held to the grand jury. Mrs. Thaw will not appear at the inquest, and she may not be required to go before the grand jury, in which case her testimony will not be taken until the trial. In the meantime the district attorney's office will prosecute an investigation of the habits and movements of Thaw and White for several weeks previous to the tragedy.

No less than twenty witnesses were examined by the district attorney's office Wednesday. Among these was Thaw's valet, William Bedford, who has been in his service for six years and is believed to be conversant with the events which are supposed to have been the immediate incentive to the crime.

It was announced that Mr. Garvan, who is preparing the case against Thaw, has discovered a witness who alleged that he overheard White made derogatory remarks concerning Mrs. Thaw while in the Cafe Martin a few hours before he was shot. According to the witness White was seated two or three tables away, and was not whispering. At that time Mr. and Mrs. Thaw were in the cafe dining.

It is believed that this witness will not appear before the coroner's jury, but that he will be reserved for the trial. Nellie Leahy, Mrs. Thaw's maid, also was examined by Mr. Garvan.

### GERMAN TARIFF SITUATION.

Extremely Embarrassing to the State Department.

Washington, June 28.—The German tariff situation is extremely embarrassing to the state department. There is but little hope, however, that congress will pass legislation which will make it possible for Secretary Root to live up to inducements held out to Germany which resulted in the temporary extension by Germany of its minimum tariff rates pending a readjustment of the American customs regulations.

Since Germany extended its minimum rates to the United States there have been repeated efforts to obtain the customs changes. Secretary Shaw agreed to these and they were laid before congress, but the bill underwent modifications and in the form it was reported to the house did not make good the promises of the state department.

### PANIC ON EXCURSION STEAMER.

Bartender Shoots a Woman and Four Men.

Evansville, Ind., June 28.—A panic occurred on the excursion steamer D. A. Nesbitt when Bishop Gill, bartender on the boat, shot and seriously injured Ruth Brown. While resisting efforts to capture him Gill shot four others, Lloyd Norton, Zach Reed, Mel Moody and Russell White, all of whom will recover. The boat officers finally subdued Gill with a pike pole, knocking him down as he was attempting to reload his revolver. During the excitement several of the women passengers attempted to jump overboard.

Ruth Brown may recover, but will be a helpless cripple, her spinal cord being injured.

### REVOLUTION THREATENED.

American Residents Preparing to Leave Spanish Honduras.

New Orleans, June 28.—Reports that a revolution is threatened in Spanish Honduras, that American residents there are making arrangements to leave the country, and that yellow fever quarantine precautions in force on the Honduran coast are in danger of demoralization from the anticipated political upheaval have been made public here by the Louisiana state board of health.

Several of the reports have come from members of a corps of thirty-one traveling medical inspectors which the state is now maintaining in West Indian and Central American countries.

### St. Louis Strikes Ended.

St. Louis, June 28.—The strikes that have retarded building operations in St. Louis for the past three months and resulted in 6,000 men being out of work, have been declared off by the Building Trades Council. The striking members of the council have been ordered back to work pending adjustment of differences.

### LONGWORTHS IN LONDON.

Guests of Honor at Another Notable Entertainment.

London, June 28.—Congressman and Mrs. Nicholas Longworth have returned here from Kiel.

Mr. and Mrs. Longworth were the guests of honor at another notable entertainment at Dorchester house at night, Ambassador and Mrs. Reid giving what they termed a "small dance" but which took on the proportions of a ball, at which there were several hundred guests. Many notables were present, including Princess Christian, Princess Victoria, the ambassadors and ministers of foreign countries, members of the British nobility, many Anglo-Americans, the Right Honorable James William Lowther, speaker of the house of commons, and Mrs. Lowther; the Right Hon. Herbert Henry Asquith, chancellor of the exchequer, and Mrs. Asquith, and the Right Hon. Herbert John Gladstone, member of parliament, and Mrs. Gladstone.

### APPROVED BY ROOSEVELT.

Joint Resolution Expressing Horror at Massacre of Jews.

Washington, June 28.—President Roosevelt has approved the joint resolution of congress expressing the horror of the people of the United States as the result of the reports of the massacre of Hebrews in Russia and expressing sympathy with those bereaved. The approved resolution will be sent to the state department, where it will be published officially as an act of congress. There is no requirement that it shall be officially communicated to the Russian government.

### ON SANTO DOMINGO TREATY.

Senator Bacon Desires Senate to Take Vote on Dec. 17.

Washington, June 28.—Taking the administration senators completely by surprise, Senator Bacon in executive session of the senate moved that the senate vote on the Santo Domingo treaty on Dec. 17 at the next session of congress.

This is the treaty under which the United States undertakes to collect and disburse the customs of the Dominican republic for the payment of its debts. Efforts extending over two sessions of congress have been made by Republican senators to ratify the treaty, but Democratic opposition has prevented. The motion, coming from a Democrat who has been one of the chief opponents of the measure, astonished the Republican senators.

Senator Spooner asked the reason for fixing the date in the next session. Senator Bacon replied that the administration is endeavoring to carry out the provisions of the treaty without authority and it would be better either to give this authority or end the present state of affairs.

At the request of Republican senators, however, Senator Bacon permitted the question to go over for a day.

### TAKES SOME TIME

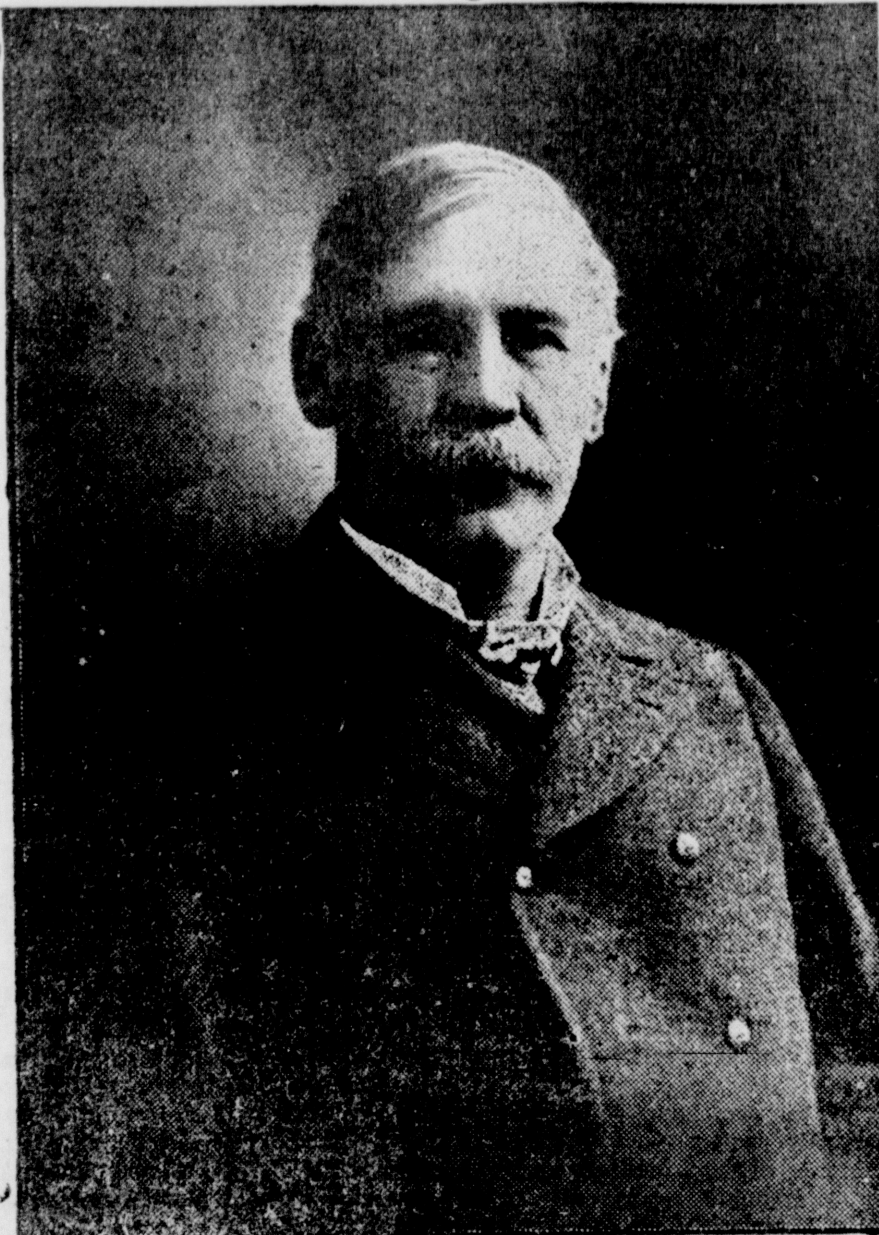

To Arrange for Purchase of Site for New Post-Office Building to be Erected In This City

Washington, June 27.—Residents of cities in Minnesota and other northwestern states which are to have public buildings or sites for public buildings, under the provisions of the public buildings bill, need not be disappointed if it takes eight or ten months to acquire the necessary land.

Several representatives, among them Buckman, of Minnesota, made inquiry at the office of the supervising architect yesterday relative to the method of procedure. Buckman got a \$10,000 appropriation for a site at Brainerd, and he wanted to be prepared to answer questions about it when he reached home.

After the bill becomes a law the department will determine how much ground is needed for public purposes in each city named in the bill. It will then advertise for proposals for the sale of suitable sites. Upon receipt bids will be tabulated and special agents appointed to visit the various cities and inspect the sites offered.

Upon the receipt of reports, the de-

### MUST HAVE FISH WAYS

Dam Companies on the Upper Mississippi Have Been Ordered to Put in Fish Ways

The following appeared in yesterday's Minneapolis papers under a St. Cloud date line:

"Notice has been served on the St. Cloud Waterpower company by Executive Agent Sam F. Fullerton of the state game and fish commission, that it must at once proceed to put a fishway in the dam it maintains across the Mississippi. This action is the result of a petition presented by citizens of Sauk Rapids and this city who believe that the dam is a great detriment to fishermen along the river. They say the fish cannot get over the dam and that there is practically no fish between St. Cloud and Sauk Rapids, and for some distance above the latter place.

"The commission has ordered fishways placed in all dams between Minneapolis and this city."

## DON'T LIKE IT IN CANADA

George Bowers and Family are Much Disgusted With the Saskatchewan Country.

### THEY LIKE IDAHO MUCH BETTER

The Land of the Stars and Stripes is Fairest in Their Way of Thinking.

Mr. and Mrs. John Fallon have received a long letter from Mrs. George Bowers, who went from here to Saskatchewan early this spring with her husband. They apparently think Uncle Sam's dominions are good enough for them. A portion of the letter was as follows:

Potlatch, Idaho, May 26, 1906.

Dear Friends:—I will again try and let you know where we are. We are in God's country again, in the land of Stars and Stripes. God be praised. Of all sells Canada is the worst. We went in at the front door and came out at the back door.

After we left Winnipeg for about a half day out, it is a nice country, and then it changes and it is swamp holes, hills and little lakes and willows, and then hills with rocks so thick that you can walk on them. For miles and miles you don't see a farm, but just willows and little poplars as big as a broomstick, and alkali until the ground is white with it. Then more hills and ravines, or draws, as they call them out there, and that is the way the Saskatchewan valley is all the way to Battleford. It is so cold there that you can hardly stand it and dry and windy. We stayed five weeks in North Battleford and then I went to Old Battleford. Old Battleford is on the other side of the Saskatchewan river, which is divided by a big island. We crossed on a big scow drawn by a big cable and horses. Then we crossed the island, about a half a mile, then we came to a long sandy beach and then the main channel of the river. Then we crossed on big steam ferry boat and then went up a big mountain and there stands Old Battleford.

It has been built for thirty years and I did not see one garden spot. There are no flowers of any kind. A more barren place I never was in. Every other person you meet is an Indian. They are Creeks, mostly half breeds or Canadian French, and they just hate people from the states.

It is up one mountain and down another all the way until we came down to Edmonton. There is a nice farming country around there, but it is all taken up. Edmonton is on a high mountain but it is a beautiful city. Then we came to Gilgry. That is another nice place and from there to McLeod there are thousands of acres that can never be farmed on account of the stone on it. It looks as if the stone had been raked up in windrows. The cobblestones are so thick you cannot step for them. I did not see one farm around there—everything is shipped in. We saw plenty of dead horses and cattle on the way.

From there we came to Pernie, a nice little town right in the Rocky mountains. We went through the Crow's Nest and there was the prettiest lake right up in the mountains. The waters were just as blue as the sky. Then we came to the Turtle mountains. There was a town built there but the mountains parted right in the middle and fell and buried the town. Five hundred people were buried alive. O, it is horrible, it is awful, it is grand. It made me feel bad when we went over it to think of the poor people buried there. They found one little baby alive. It lay between its father and mother

They were both dead, but the baby is alive and well. God's hand must surely have been there.

Then we came to Spokane and then to Pauluce and then to Potlatch, and here we are in a nice little town built on the side of the mountain. We like it here real well. We have the nicest water you ever saw and they can raise all kinds of fruit. The strawberries are ripe. We have radishes and young onions as big as a teacup. All kinds of fruit—cherries, apples, peaches, pears, apricots, prunes, plums, and all fruits flourish here.

John, this is the place for you and Willie. The soil is good. George says tell you he never saw better; one good thing about it is that it will not wash, and on the hills is the best soil. They tell us they can raise 50 to 60 bushels of wheat to the acre. The grain looks fine and the cattle look well. Cows are worth \$30 to \$40 apiece. Horses are cheap. Plenty of timber for wood and farm use. Hogs run out and are fatter than ours were back there. Here is the place for poor people. Plenty of work at \$2.50 and \$3.00 a day, and you do not have to plaster your houses here to keep from freezing. They say it gets down to about 9 degrees above zero in the winter. Everything is as cheap here as there.

Mrs. Fallon, here you could put up up fruit to your hearts content. I am feeling better here every day. I caught a terrible cold in Canada. You are freezing there all the time. It makes me laugh every time I think of George Bowers and Susie. They wanted to go to Canada so bad and wanted to get away worse. Tell everybody you hear speak of going to Canada to stay where they are. It is no place for poor people. Thousands are going to suffer there. Thousands are leaving and going back, even leaving their things—any way to get away from there. Now I have told you the truth.

Horses from the States cannot live there. In the barn where George had his horses five died in one day, and you can see them along the road where they have dropped dead. It is the water. There are no fish in the lakes or rivers, so you know the water is not pure. At Jackfish lake they say you cannot stand it when it gets warm. The water is so bad that you can smell it for miles.

With love to all.

## WANT FRANCHISE FOR GAS PLANT

Parties Said to be Trying to Secure Concessions from City Council for Plant.

### IDENTITY NOT YET REVEALED

Would Furnish Gas for Heating and Cooking as Well as for Illuminating.

That parties are trying to secure a franchise for the use of the streets and alleys of the city for a private gas plant has developed in the last day or two. The parties here looking up the matter decline to give the names of the parties interested but it is learned that letters of inquiry to the secretary of the commercial club were written on the stationery of the Pines Gas company, of New York, a big concern that furnished gas plants for lighting many passenger trains.

Local parties who are in favor of the granting of the franchise state that it is not for the purpose of bucking our city light plant, but for the purpose of furnishing gas for heating and cooking.

On the other hand it is claimed that a gas plant would, if permitted a franchise, so seriously cut into the patronage of the electric light plant in the business district, that, in order to run, the city plant would have to do one of two things. Either increase the rate to residence and other consumers, or levy a tax to supply the deficiency.

It is not known as yet just when or how the matter will be brought up, but there will certainly be opposition to the granting of any franchise unless providing for a gross earnings tax and probably in any event.

### MUSIC AND DRAMA.

"A MESSAGE FROM MARS," the play which had so great a run in London and in New York will be seen here at the Brainerd opera house, Monday, July 9, presented just the same as it was in those cities and with a great cast, many of whom were in the original London production. "A Message from Mars" is a delightful comedy which teaches, it is said, one of the most forceful lessons against selfishness that has ever been shown in any stage offering in this country. David Proctor, one of the most prominent of the younger generation plays the leading part.

### WILL ENDORSE BRYAN

**WISCONSIN DEMOCRATS DESIRE HIM TO HEAD THE NATIONAL TICKET IN 1908.**

#### FAVORS REVISION OF TARIFF

**STATE CONVENTION AT MILWAUKEE EXPECTED TO DECLARE FOR SUCH POLICY.**

Milwaukee, June 28.—That the Democrats of Wisconsin will endorse William Jennings Bryan as the party's national standard bearer in the campaign of 1908 and declare for a revision of the tariff there seems to be no question. When Daniel H. Grady of Portage, the temporary chairman of the platform convention, referred in his speech to Mr. Bryan as "the embodiment of the principles of Democracy" and hoped that "he may live to see the triumph of the cause and answer to the people's call to the helm of state, leaving an official record as stainless as that of his private life," the 700 delegates attending the convention broke forth in tumultuous applause. The applause was spontaneous and every delegate took part in it. Many of the delegates who two years ago were opposed to the Nebraskaan are now strongly for him.

Mr. Grady in his speech reviewed the affairs of the state and nation and credited the Democracy with being responsible for many great reforms. John A. Aylward of Madison was chosen as permanent chairman and when the convention reconvened at night made a lengthy speech reviewing state and national issues. His complimentary reference to W. J. Bryan was cheered to the echo.

In this campaign and in the next, he said, our dominant cry shall be "rational tariff revision."

Mr. Aylward's speech was devoted in great part to state issues, in which he arraigned the Republican administration for vast expenditures of public moneys as compared with the Democratic administration of Governor George W. Peck.

At the conclusion of Mr. Aylward's speech calls were made for several prominent delegates to make speeches. After listening to a few remarks by Joseph G. Donnelly, former consul general to Mexico under the Cleveland administration, in which he lauded Bryan, the convention took a recess until 10 o'clock a. m.

#### PENNSYLVANIA DEMOCRATS.

Nominate a State Ticket Headed by Lewis Emery, Jr., for Governor.

Harrisburg, Pa., June 28.—The Democratic state convention here nominated the following ticket: Governor, Lewis Emery, Jr., Bradford, the Lincoln party nominee; Lieutenant governor, Jere S. Black, York; auditor general, William T. Creasy, the Prohibition nominee; secretary of internal affairs, John J. Green, Philadelphia.

The platform deals entirely with state issues, except on the plank which commends William J. Bryan. The convention did not go on record in favor of Bryan's nomination for president.

Emery was the choice of the delegates who favor fusion with the Lincoln party on a state ticket. He was nominated on the first ballot by a vote of 261 to 69 for Arthur G. Dewalt of Lehigh county.

#### FOUND DEAD IN A WELL.

Mother and Son and Hired Man Perish in South Dakota.

Pierre, S. D., June 28.—A report has reached here from Bovine, on Bad river, of the death of Mrs. Thomas Hill, her small son and Clarence Johnson, a hired man. The deaths occurred in an old well.

The boy evidently fell into the well and the man went down after him, and was overcome with gas, and the woman met the same fate in attempting to rescue the child and the man.

All were found dead in the well, which had gas in it, which is the supposed cause of the deaths.

#### Mayor Found Guilty.

Terre Haute, Ind., June 28.—The city council in the impeachment charges brought against Mayor Edward J. Bidman found the mayor guilty as charged and declared him ousted from office. Mayor Bidman declared that he would not recognize the ouster order. Bidman was impeached for failure to enforce certain city ordinances.

#### Killed in an Auto Accident.

Columbus, O., June 28.—Frank E. Stoneman, president of the North American Lead company and identified with numerous other business interests, was killed and Joseph F. and George W. Davidson were painfully injured in an automobile accident six miles west of here.
